Monopole**

Dear Mr. Brodka,

B&T Engineering is pleased to submit this “**Construction Completion Letter**” regarding the above-mentioned Monopole.

We reviewed the photographs of the telecommunications equipment installed on the Monopole, taken on March 3, 2022. Based on the photographs provided, As-Built drawings dated March 10, 2022, and construction drawings by B+T Group dated November 3, 2021, this telecommunications site has the following antennas and associated equipment installed in three sectors of the Monopole.

- (3) New Antennas
- (6) New Radios

The quantities and types of antennas and associated equipment from the photographs are in structural compliance, therefore, it is our opinion that the antennas and associated equipment were properly installed.

We at *B&T Engineering* appreciate the opportunity of providing our continuing professional services to you and *Crown Castle*. If you have any questions or need further assistance on this or any other projects, please give us a call.
