Dear David Jefferson,

I, Chad Tuttle, a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated November 4, 2024, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by Andrei Kazachonak of SL Universal Contractors LLC, dated October 10, 2024; and the construction drawings by B+T Group dated March 23, 2023; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the Town of Suffield (last revised March 23, 2023) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2022 Connecticut SBC).

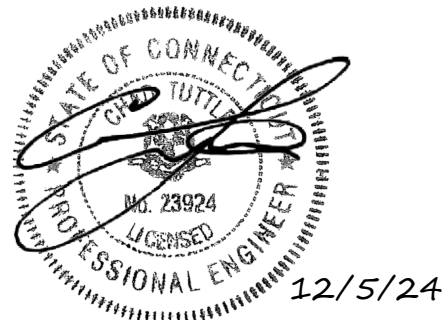

In my professional opinion, any minor deviations from the drawings and specifications will not prevent the project from functioning in compliance with the requirements of the Town of Suffield and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office.
