Re: **EM-VER-141-140625 – Cellco Partnership d/b/a Verizon Wireless  
38 Rich Road, Thompson, Connecticut**

Dear Ms. Bachman:

On July 17, 2014, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 38 Rich Road in Thompson, Connecticut. The modifications involved the replacement of its antennas and installation of remote radio heads and fiber lines.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter confirming that it has complied with the recommendations made in the structural report included with its filing. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to the structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**Re: Tower Modification Certification**

**Project:** Thompson North  
38 Rich Road, Thompson, CT

**Tower Owner:** SBA Communications  
5900 Broken Sound Parkway NW, Boca Raton, FL

**Engineer:** FDH Engineering, Inc.  
6521 Meridien Drive, Raleigh, NC

**Centek Project No.:** 16003.011

**CSC Exempt Mod Reference No.:** EM-VER-141-140625

Dear Mr. Parks,

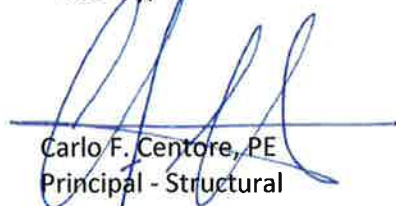

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by FDH Engineering (FDH Project Number: 14260F1400):

- Review of the FDH Engineering, Inc. Structural Analysis dated 04/07/14.
- Field observations by Centek Engineering personnel on 3/23/16 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the structural analysis report prepared by FDH Engineering, Inc. on 04/07/14

The modification design prepared by FDH Engineering, Inc. demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

  
Carlo F. Centore, PE  
Principal - Structural
