Re: **EM-VER-142-140623 – Cellco Partnership d/b/a Verizon Wireless
208 Reed Road, Tolland, Connecticut**

Dear Ms. Bachman:

On July 16, 2014, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 208 Reed Road in Tolland, Connecticut. The modifications involved the replacement of its antennas and installation of remote radio heads and fiber lines.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the recommendations made in the structural report were complied with. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to the structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Re: Existing Telecommunications Facility Tower Certification Letter

Project: Verizon Tolland 2
208 Reed Road
Tolland, CT

Tower Owner: SBA Communications

Engineer: FDH Engineering
6521 Meridien Drive
Raleigh, NC 27616

Centek Project No.: 15003.066

CSC Exempt Mod Reference No.: EM-VER-142-140623

Dear Mr. Parks,

We are providing this "Existing Telecommunications Facility Tower Certification Letter" with regard to the antenna upgrade by Verizon Wireless at the above referenced project.

The following are the basis for substantiating compliance with the FDH Engineering structural analysis report (FDH Project No. 1424GA1400 (R1)) dated March 17, 2014:

- Review of the FDH structural analysis report dated 03/17/2014.
- Field observations by Centek personnel of the coax installation on 10/29/2015 which determined all coax lines were installed in general compliance with the recommendations of the structural analysis report prepared by FDH Engineering on 03/17/2014.

The structural analysis prepared by FDH Engineering demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the referenced structural analysis.

Sincerely,

Carlo F. Centore, PE
Principal ~ Structural Engineer
