Re: **EM-VER-144-150305 – Cellco Partnership d/b/a Verizon Wireless  
80 Booth Hill Road, Trumbull, Connecticut**

Dear Ms. Bachman:

On April 2, 2015, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 800 Booth Hill Road in Trumbull, Connecticut. The modifications involved the replacement of its antennas, the installation of remote radio heads and the installation of a new fiber optic antenna cable.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that Cellco's modifications were consistent with those referenced in the Structural Analysis Report. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the modifications were completed as required.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**Re: Tower Modification Certification**

**Project:** Verizon Trumbull  
800 Booth Hill Rd, Trumbull, CT

**Tower Owner:** Crown Castle  
1200 McArthur Blvd  
Mahwah, NJ 07430

**Engineer:** Tower Engineering Professionals  
326 Tryon Rd.  
Raleigh, NC 27603

**Centek Project No.:** 15003.018

**CSC Exempt Mod Reference No.:** EM-VER-144-150305

Dear Mr. Parks,

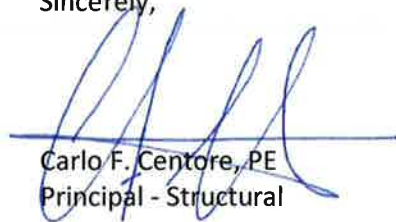

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the Structural Analysis Report prepared by Tower Engineering Professionals on 10/17/14 (TEP Project Number: 25575.25415):

- Review of the Structural Analysis Report by Tower Engineering Professionals on 10/17/14 (TEP Project Number: 25575.25415).
- Field observations by Centek Engineering personnel on 09/14/2015

The modification design prepared Tower Engineering Professionals demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

  
Carlo F. Centore, PE  
Principal - Structural
