Monopole

Dear Mr. Forest,

B+T Group is pleased to submit this "Construction Completion Letter" regarding the above-referenced Monopole.

We reviewed the photographs of the telecommunications equipment installed on the Monopole, taken on August 5, 2021. Based on the photographs provided, As-Built dated August 30, 2021, and the construction drawings by B+T Group dated May 13, 2021, this telecommunications site has the following antennas and associated equipment installed in three sectors on the Monopole.

- (3) New Antennas
- (3) New TMAs
- (3) New Support Rail Kits
- (3) New Handrail Reinforcement Kits

The quantities and types of antennas and associated equipment from the photographs are compliant, and therefore, it is our opinion that the antennas and associated equipment were properly installed.

We at B+T Group appreciate the opportunity of providing our continuing professional services to you and Crown Castle. If you have any questions or need further assistance on this or any other projects, please give us a call.
