Mr. Raab,

Infinigy has conducted a post construction review of the mount reinforcement for the site referenced above. Infinigy has prepared the mount analysis and modification design report for the telecommunication equipment mount installed at 148ft on the monopole located at the aforementioned site and as such, we have conducted a final site review for the sole purpose to verify that the reinforcement installation was completed in accordance with the report.

Based on our review of the signed and sealed modification report for this site issued by Infinigy on February 11, 2022, and the as-built drawings and post construction photographs provided by the contractor, it is our opinion that the reinforcement was installed in general conformance with the report prepared by Infinigy.
