Wireless Telecommunications Facility

Dear Veronica Delia Chapman,

I, Chad Tuttle, a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated April 18, 2023, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by Joshua Lee Quail of Aerus Solutions Provider Co., dated April 13, 2023; and the construction drawings by B+T Group dated May 13, 2022; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the City of Waterbury (last revised May 13, 2022) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2018 CT SBC/2015 IBC and 2018 CT SBC/NEC 2017).

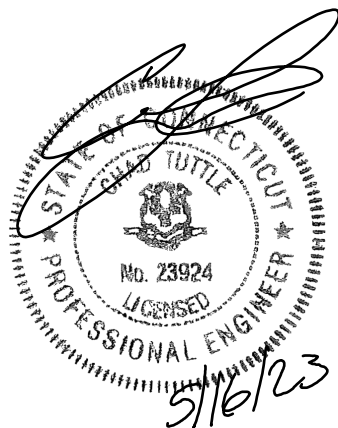

In my professional opinion, any minor deviations from the drawings and specifications will not prevent the project from functioning in compliance with the requirements of the City of Waterbury and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office. Thank you.

Engineer’s Certification of Completion prepared by: Bhree Barrett

Respectfully submitted by: MTS Engineering P.L.L.C.

Chad Tuttle, P.E.
