Melanie A. Bachman  
Executive Director  
Connecticut Siting Council  
10 Franklin Square  
New Britain, Ct. 06051

**Re: Dominion Energy Nuclear Connecticut, Inc. – Notice of Exempt Modification  
Millstone Power Station - Installation Completion of New Fire Water Tank  
Heater Skid**

Dear Ms. Bachman:

On June 19, 2019, Dominion Energy Nuclear Connecticut, Inc (DENC) filed a notification (Reference 1) pursuant to R.C.S.A. §16-50j-58 with the Connecticut Siting Council (Council) for installation that constituted an exempt modification pursuant to R.C.S.A. §16-50j-57(b)(2) for the installation of new fire water tank heater skid. The fire water tank heater skid is located on a 6-foot by 7-foot concrete equipment pad to the west of the fire water tanks.

On July 15, 2019, the Council acknowledged DENC's notice (Reference 2) to modify the existing facility with conditions and requested notification in writing when installation is completed.

This letter serves to inform the Council the installation of the fire water tank heater skid was completed December 23, 2019. Should you have any questions, please contact Jeffry A. Langan at (860) 444-5544.

Sincerely,

A handwritten signature in black ink that reads "Lori J. Armstrong".

Lori J. Armstrong  
Director, Nuclear Station Safety and Licensing
