Re: **EM-VER-155-140623 – Cellco Partnership d/b/a Verizon Wireless
3114 Albany Avenue, West Hartford, Connecticut**

Dear Ms. Bachman:

On July 17, 2014, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 3114 Albany Avenue in West Hartford, Connecticut. The modifications involved the replacement of its antennas and the installation of remote radio heads and fiber optic antenna cables.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter confirming that it has complied with the recommendations made in the structural report included with its filing. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to the structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Re: Tower Modification Certification

Project: Verizon Talcott 2
3114 Albany Avenue, West Hartford, CT

Tower Owner: SBA Network Services, Inc.
8051 Boca Raton, Florida 33487

Engineer: FDH Engineering, Inc.
6521 Meridien Drive, Raleigh, NC 27616

Centek Project No.: 15003.063

CSC Exempt Mod Reference No.: EM-VER-155-140623

Dear Mr. Parks,

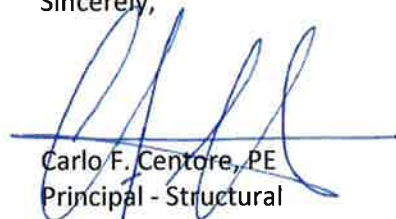

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by FDH Engineering, Inc. (FDH Project Number: 16BGCW1400):

- ❑ Review of FDH Engineering, Inc. Structural Analysis dated 03/21/2014.
- ❑ Review of FDH Engineering, Inc. letter dated 04/06/16 regarding installation of the coax.
- ❑ Field observations by Centek Engineering personnel on 11/04/15 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the structural analysis report and/or FDH Engineering, Inc.'s letter dated 04/06/16.

The modification design prepared by Paul J. Ford and Company demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE
Principal - Structural
