Subject: EM-CING-158-210218 // AT&T // NOTICE OF INTENT TO MODIFY AN EXISTING TELECOMMUNICATIONS FACILITY // 515 POST ROAD EAST WESTPORT CT // CT2153 LTE 6C
Attachments: CT2153-6C-5G-FSSI 6-23-21.pdf

Good morning,

Qualtek Wireless had completed the AT&T modifications on the existing telecommunications facilities for the above referenced site, and would like to get the CSC Permit closed as soon as possible. Please see the attached Final CCA/SSI for your review and records. Should your team require any additional information or documentation, please let me know. I appreciate your assistance!

Thank you,

Krystle Craft / Construction Operations Specialist / 978.846.1990 / kcraft@qualtekwireless.com

Final Report of Special Inspections

Project: CT2153 (FA 10035241) LTE 6C 5G NR 7C 2021 Upgrade

Location: 515 Boston Post Road East, Westport, CT 06880

Owner: AT&T

Engineer of Record: Daniel P. Hamm, P.E.
Hudson Design Group, LLC.

To the best of my information, knowledge and belief, the Special Inspections required by Chapter 17 for the project have been performed and all discovered discrepancies have been reported and resolved.

Representatives of Hudson Design Group LLC performed the Final Inspections after the construction of the telecommunications facility at the above-referenced address. The Final Inspection was performed on June 1, 2021.

Based on my knowledge, information and belief the wireless installation substantially conforms to the approved plans, IBC 2015 with 2018 CT State Building Code Amendments, Structural Standards for Antenna Supporting Structures and Antennas (ANSI/TIA-222-H), and the following:

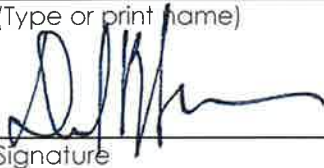

1. Final Construction Drawings dated 02/11/2021, prepared by Hudson Design Group LLC, entitled "LTE 3C 4C 2020 Upgrade."
2. Final Mount Analysis dated 06-22-2020, prepared by Hudson Design Group LLC
3. Final Structural Analysis dated 10-02-2020, prepared by Hudson Design Group LLC.

All deviations from the approved plans do not endanger the intended occupancy of the facility and equipment substitutions are approved as equivalent to the original specifications. This report does not include inspections for the findings of the global stability analysis and modifications to the structure. Those modification inspections, if required, are strictly the responsibility of the tower owner & general contractor performing such design and installation.

Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,
Special Inspector

Daniel P. Hamm, P.E.
