**Notification of Completion Received/Additional Condition Requirement Outstanding.**

Dear Paul Kean:

The Connecticut Siting Council (Council) is in receipt of your correspondence of September 12, 2023 requesting an extension of time to submit documentation required to make the above-referenced filing compliant in response to the Council's outstanding condition notice dated August 15, 2023.

The Council hereby grants an additional extension of time to submit the required documentation by December 15, 2023.

Thank you for your attention to this matter.

Sincerely,

Melanie Bachman  
Executive Director

**Subject:** RE: CT5122/ EM-CING-159-220404\_23 Kelleher Court, Wethersfield, CT

Good afternoon Lisa,

I would like to request an extension till the end of the month. We are expecting the final FCCA to come in end of this week or early next week. Once we rec I'll shoot it over for review and sign-off on the completion notice.

Please let me know if anything else is needed and we will get it over immediately for your review.

Thx  
PK

RE: **EM-CING-159-220404** – New Cingular Wireless PCS, LLC (AT&T) notice of intent to modify an existing telecommunications facility located at 23 Kelleher Court, Wethersfield, Connecticut.  
**Notification of Completion Received/Additional Condition Requirement Outstanding.**

Dear Paul Kean:

The Connecticut Siting Council (Council) received a notice of completion of construction for the above-referenced facility on August 7, 2023. Thank you for providing this information.

The Council approved the above referenced request for exempt modification in a Decision Letter dated May 9, 2022 (enclosed) with the following conditions:

1. Prior to AT&T's antenna installation, antenna mount modifications shall be installed in accordance with the Mount Analysis prepared by SAI Communications dated October 15, 2021 and stamped and signed by Daniel Hamm;
2. Within 45 days following completion of equipment installation, AT&T shall provide documentation certified by a Professional Engineer that its installation complied with the recommendations of the Mount Analysis.

The completion notice does not contain documentation certified by a Professional Engineer that AT&T's installation is in compliance with the Mount Analysis mentioned above.

Therefore, the completion notice is not in compliance with the conditions of approval at this time.

The Council recommends that Eversource provide the above referenced documentation on or before September 15, 2023. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to September 15, 2023.

If you have any questions or concerns, please call the Council office at 860-827-2935.

Thank you for your attention to this matter.

Sincerely,

Melanie Bachman  
Executive Director

Hollis M. Redding  
SAI Communications, LLC  
12 Industrial Way  
Salem, NH 03079  
[hredding@saigrp.com](mailto:hredding@saigrp.com)

RE: **EM-CING-159-220404** – New Cingular Wireless PCS, LLC (AT&T) notice of intent to modify an existing telecommunications facility located at 23 Kelleher Court, Wethersfield, Connecticut.

Dear Ms. Redding:

The Connecticut Siting Council (Council) hereby acknowledges your notice to modify this existing telecommunications facility, pursuant to Section 16-50j-73 of the Regulations of Connecticut State Agencies with the following conditions:

1. Prior to AT&T's antenna installation, antenna mount modifications shall be installed in accordance with the Mount Analysis prepared by SAI Communications dated October 15, 2021 and stamped and signed by Daniel Hamm;
2. Within 45 days following completion of equipment installation, AT&T shall provide documentation certified by a Professional Engineer that its installation complied with the recommendations of the Mount Analysis;
3. Any deviation from the proposed modification as specified in this notice and supporting materials submitted to the Council shall render this acknowledgement invalid;
4. Any material changes to this modification as proposed shall require the filing of a new notice with the Council;
5. The Council shall be notified in writing at least two weeks prior to the commencement of site construction activities;
6. Within 45 days after completion of construction, the Council shall be notified in writing that construction has been completed;
7. Deployment of any 5G services must comply with FCC and FAA guidance relative to air navigation, as applicable;
8. Any nonfunctioning antenna and associated antenna mounting equipment on this facility owned and operated by AT&T shall be removed within 60 days of the date the antenna ceased to function;
9. The validity of this action shall expire one year from the date of this letter; and

10. The applicant may file a request for an extension of time beyond the one year deadline provided that such request is submitted to the Council not less than 60 days prior to the expiration.

The proposed modifications including the placement of all necessary equipment and shelters within the tower compound are to be implemented as specified here and in your notice dated March 31, 2022. The modifications are in compliance with the exception criteria in Section 16-50j-72 (b) of the Regulations of Connecticut State Agencies as changes to an existing facility site that would not increase tower height, extend the boundaries of the tower site by any dimension, increase noise levels at the tower site boundary by six decibels or more, and increase the total radio frequencies electromagnetic radiation power density measured at the tower site boundary to or above the standards adopted by the Federal Communications Commission pursuant to Section 704 of the Telecommunications Act of 1996 and by the state Department of Energy and Environmental Protection pursuant to Connecticut General Statutes § 22a-162. This facility has also been carefully modeled to ensure that radio frequency emissions are conservatively below state and federal standards applicable to the frequencies now used on this tower.

This decision is under the exclusive jurisdiction of the Council. Please be advised that the validity of this action shall expire one year from the date of this letter. Any additional change to this facility will require explicit notice to this agency pursuant to Regulations of Connecticut State Agencies Section 16-50j-73. Such notice shall include all relevant information regarding the proposed change with cumulative worst-case modeling of radio frequency exposure at the closest point of uncontrolled access to the tower base, consistent with Federal Communications Commission, Office of Engineering and Technology, Bulletin 65. Thank you for your attention and cooperation.

Sincerely,

Melanie A. Bachman  
Executive Director
