Representatives of EFI Global, Inc. (EFI) performed a review of documentation provided by the general contractor after recent construction and equipment addition to the existing T-Mobile telecommunications facility at the above referenced address.

The review was undertaken to determine if the construction was in substantial conformance with the following documentation, along with the requirements of the 2018 Connecticut State Building Code and ANSI/TIA-222-G:

- Mount Structural Analysis Report – Revision 1 prepared by EFI Global, Inc., dated 4/14/2020.

The following documentation was provided to EFI for review:

- Photographs dated 3/27/2021.
- Sales Order from SitePro1/Valmont dated 2/15/2021.

Based on my knowledge, information, and belief, the T-Mobile installation substantially conforms to the above referenced documentation.

Therefore, EFI **approves** the construction of the T-Mobile Installation.
