Subject:	Engineer's Certification of Completion	
Jurisdiction Designation:	Building Permit Number:	2
Carrier Designation:	Site ID:	325157
Engineering Firm Designation:	Project Number:	102920.015.01
Site Data:	128 Mather Street, Wilton, CT 06897 Latitude 41° 14' 18.70" N, Longitude 73° 25' 26.90" W Wireless Telecommunications Facility	

Dear Robert Brodka,

I, Chad Tuttle, a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated April 3, 2023, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by R. Moore of Eastern Communications, Inc., dated March 31, 2023; and the construction drawings by Tectonic dated June 15, 2021; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the Town of Wilton (last revised June 15, 2021) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2018 CT SBC and NEC 2017).

It is hereby noted that, at the direction of the Client, the Contractor deviated from the approved construction drawings by removing (12) coax cables and (6) RFS APL868013-42T0 antennas; and by relocating the Samsung MT6407-77A antennas to Position 6 and the CBRS RRH RT4401-48A radios to Position 5.

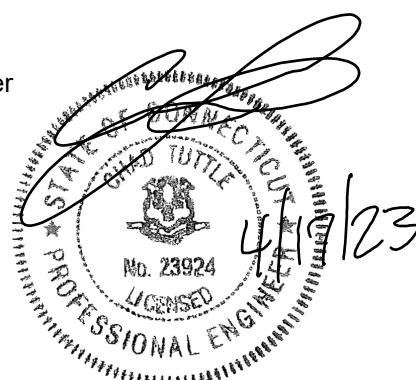

In my professional opinion, any minor deviations from the drawings and specifications, including the above listed Client directed deviations, will not prevent the project from functioning in compliance with the requirements of the Town of Wilton and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office. Thank you.

Engineer's Certification of Completion prepared by: Bhree Barrett

Respectfully submitted by: MTS Engineering P.L.L.C.
