All,

In connection with our communications below, please see attached the electronic copy of a new filing submitted to you via UPS as of this morning.

Copies of same filing, excluding the check, UPS labels and structural calculations that could be omitted (latter only in PDF herein), were distributed for UPS delivery to the chief elected official, P&Z officials, as well as tower and property owners.

Accordingly, **please withdraw decided filing action in subject and replace with this one once acknowledgement** can be issued. Do not hesitate to call should any further questions arise.

Thanks,

Alex Murshteyn

Hi Alex,

Staff has reviewed the information that you sent last week with regards to amending this EM, and has determined that such amendments cannot be made. Additional changes will require a new filing.

However, we can still approve a time extension for the EM as it currently is, if you are still interested.

Sincerely,
Evan Robidoux

Evan,

It was a pleasure to speak with you a few minutes ago about the attached/below EM approval, which Verizon would like to extend for another year and amend slightly. Updated CDs showing RRU package with 1 different-model set of 3 RRUs, but still 12 as originally approved, is attached. Structural Analysis was also updated and is also attached.

Please help advise us if this EM-VER-162-180205 acknowledgement action letter may be extended beyond its one year deadline and amended for the minor changes to the modifications posed as herein described.

Thank you,

Alex Murshteyn
