Re: **EM-VER-164-141223 – Cellco Partnership d/b/a Verizon Wireless  
340 Bloomfield Avenue, Windsor, Connecticut**

Dear Ms. Bachman:

On January 12, 2015, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 340 Bloomfield Avenue in Windsor, Connecticut. The modifications involved the replacement of its antennas and installation of remote radio heads and fiber lines.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the recommendations made in the structural report were complied with. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to the structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**Re: Tower Modification Certification**

**Project:** Verizon Windsor 3  
340 Bloomfield Avenue, Windsor, CT

**Tower Owner:** Crown Castle  
3530 Toringdon Way, Suite 300, Charlotte, NC

**Engineer:** B&T Group  
1717 S. Boulder, Suite 300, Tulsa, OK

**Centek Project No.:** 15003.060

**CSC Exempt Mod Reference No.:** EM-VER-164-141223

Dear Mr. Parks,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by B&T Group (B&T Group Project Number: 91728.005.01):

- Review of the B&T Group Structural Analysis dated 10/29/2014.
- Review of the B&T Group Modification Drawings S1 thru S6 and D1 dated 10/29/2014.
- Review of the Tower Engineering Professionals Modification Inspection Report dated 04/23/2015.
- Field observations by Centek Engineering personnel on 10/30/2015 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the structural analysis report prepared by B&T Group on 10/29/2014.

The modification design prepared by B&T Group demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE  
Principal - Structural
