Melanie Bachman Acting Executive Director Connecticut Siting Council 10 Franklin Square New Britain, CT 06051

Re: EM-VER-164-150209 – Cellco Partnership d/b/a Verizon Wireless 599 Matianuck Avenue, Windsor, Connecticut

Dear Ms. Bachman:

On March 2, 2015, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 599 Matianuck Avenue in Windsor, Connecticut. The modifications involved the replacement of certain antennas and installation of remote radio heads and fiber optic cable.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that Cellco's facility modifications complied with the recommendations referenced in the November 21, 2014 Structural Analysis Report. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the modifications were completed as required.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Re: Tower Modification Certification

Project:

**Verizon Windsor S** 

599 Matianuck Ave, Windsor, CT

**Tower Owner:** 

**Crown Castle USA** 

220 Lathrop Road, Candor, NY

**Engineer:** 

Paul J. Ford and Company

250 East broad St., Suite 600, Columbus, Ohio N2K 43215

Centek Project No.: 15003.015

CSC Exempt Mod Reference No.: EM-VER-164-150209

Dear Mr. Parks,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by Paul J. Ford and Company (PJF Project Number: 37514-2522.001.7700):

- Review of the Paul J. Ford and Company Structural Analysis dated 11/21/2014.
- □ Review of the Paul J. Ford and Company Modification Drawings T-1 and S-1 thru S-5 dated 11/21/2014.
- Field observations by Centek Engineering personnel on 09/06/2015 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the structural analysis report and modification drawings prepared by Paul J. Ford and Company on 11/21/2014.

The modification design prepared by Paul J. Ford and Company demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo/F./Centore, PE \ Principal - Structural
