RE: **EM-AT&T-166-180412** – AT&T notice of intent to modify an existing telecommunications facility located at 347 East Street, Wolcott, Connecticut.

Dear Ms. Kirchmaier:

The Connecticut Siting Council (Council) is in receipt of your email of July 13, 2018 requesting a third extension of time to submit documentation required to make the above-referenced filing complete in response to the Council's incomplete notice dated April 27, 2018.

The Council hereby grants a third extension of time to submit the required documentation by October 12, 2018.

Thank you for your attention to this matter.

Sincerely,

Melanie A. Bachman
Executive Director

This is sufficient. I would give them another 90 days. It seems like that would work for them. Thanks.

Is this sufficient enough of an ask, and how long do you think for an extension? Since Christina is not here I figured I would ask you!

RE: **EM-AT&T-166-180412** – AT&T notice of intent to modify an existing telecommunications facility located at 347 East Street, Wolcott, Connecticut.

Dear Ms. Kirchmaier:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on April 12, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the structural analysis report. The structural analysis report provided in the exempt modification filing was run using ANSI/TIA/EIA-222-F standards with a note stating that "conformance to TIA-222-G is not required." Revision G of ANSI/TIA/EIA-222 was adopted by the Connecticut State Building Code effective October 1, 2016.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Smartlink provide a structural analysis report for the proposed modifications using ANSI/TIA/EIA-222-G on or before May 25, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to May 25, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman
Executive Director
