Dear Robert Brodka,

Tower Engineering Professionals is pleased to submit this “**Letter of Observation**” to verify the installation of equipment per engineered drawings by Tower Engineering Professionals dated 07/26/2021.

Post construction photos supplied by others of the installed tower mounted equipment were reviewed and evaluated against the engineered construction drawings. These appurtenances were found to be in compliance per the equipment inventory and specified equipment in the drawings. This letter does not certify the installation of the ground equipment nor was an onsite observation or tower climb conducted. This certification does not certify structural capacity of the mount, tower or any high strength bolts or connections.
