RE: **PETITION NO. 1056** – GRE 314 East Lyme, LLC Declaratory Ruling that no Certificate of Environmental Compatibility and Public Need is required for the construction and operation of a 5.0 MW Solar Photovoltaic Renewable Energy Generating Project located on Grassy Hill Road and Walnut Hill Road, East Lyme, Connecticut. **Noise Levels of the Facility.**

Dear Attorney Hoffman:

The Connecticut Siting Council (Council) is in receipt of email correspondence dated June 10, 2026 from East Lyme residents, Kristin and Andrew Green, the owners of abutting property at 14 Mountain View Road to the west of the site regarding noise at the above-referenced facility. A copy of this email correspondence is attached for your convenience.

The correspondence expresses concerns regarding a new machine that was installed last year and the associated noise levels.

Pursuant to the Council's May 17, 2013 Declaratory Ruling and in accordance with Finding of Fact No. 81 related to the possibility of the concentration of inverters along the west edge of the facility to create noise issues for the abutting properties, the Council requests Greenskies Clean Energy, LLC to respond to the following:

1. Identify the type and location of the new machine referenced in the June 10, 2026 correspondence;
2. When was the new machine referenced in the June 10, 2026 correspondence installed;
3. Why was the new machine referenced in the June 10, 2026 correspondence installed;
4. Explain why a request for an exempt modification was not submitted to the Council for the installation and operation of the new machine referenced in the June 10, 2026 correspondence.

Please provide a written response that addresses the above-referenced concerns to the Council no later than June 30, 2026.

If more time is needed to respond, please submit a written request for an extension.

Thank you for your attention to this very important matter.

Sincerely,

A handwritten signature in dark ink, appearing to read "Melanie Bachman". The signature is fluid and cursive, with a long horizontal stroke at the end.

Subject: Noise Complaint- East Lyme- solar panel farm GRE 314 East Lyme (Solv)

Hello,

We live at 14 Mountain View Rd East Lyme CT 06333 (since 2017) and the solar panel farm behind our home installed a new machine last year. The company, Solv Energy from CA seems to own and installed this machine.

We contacted them multiple times since to complain about the noise the machine makes constantly. It is loud, continuously makes a whirring noise and at times an even louder noise like there is something loose that is hitting inside the machine.

The company has not gotten back to us and we want to file a formal complaint about this but are unsure what our options are or what exactly to do.

Please advise when you can.

Thank you,
Kristin and Andrew Green
