Subject: Re: CSC Permit Closeout By Civil/Goshen - CT1453

Hi Melanie,

Hope all is well. We recently completed at AT&T installation at 442 North Street in Goshen.

I know one of the requirements of the CSC approval was to notify CSC in writing that construction is complete. Is this e-mail considered sufficient notification? Or do you need something in writing from AT&T in addition to this e-mail?

Thanks in advance for your help.

Best Regards,

Lev Mayzler
