Subject: PETITION NO. 1282 - Notice of Construction Completion New Cingular Wireless / 208 HARBOR DR STAMFORD

Ms. Bachman,

This e-mail is to inform you that construction is complete on AT&T's new site build on the rooftop of 208 Harbor Drive in Stamford. This was completed several years ago and I apologize if the FSSI was never sent over.

Please let me know if there are any questions.

Thanks,

Evan Thibodeau

Final Report of Special Inspections

Project: S2900-A Stamford Harbor

Location: 208 Harbor Drive, Stamford, CT 06902

Owner: AT&T

Engineer of Record: *Derek J. Creaser, P.E.*
Hudson Design Group, LLC.

To the best of my information, knowledge and belief, the Special Inspections required by Chapter 17 for the project have been performed and all discovered discrepancies have been reported and resolved.

Representatives of Hudson Design Group LLC performed the Final Inspections after the construction of the telecommunications facility at the above-referenced address. The Final Inspection was performed on December 19, 2017

Based on my knowledge, information and belief the wireless installation substantially conforms to the approved plans, IBC 2012 with 2016 CT State Building Code Amendments, Structural Standards for Antenna Supporting Structures and Antennas (ANSI/TIA-222-G), and the following:

1. Final Construction Drawings dated 07-28-2017, prepared by Hudson Design Group LLC, entitled "S2900-A Stamford Harbor."
2. Final Structural Analysis dated April 25, 2017 Rev 4, prepared by Hudson Design Group LLC.

All deviations from the approved plans do not endanger the intended occupancy of the facility and equipment substitutions are approved as equivalent to the original specifications.

Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,
Special Inspector

Derek J. Creaser, P.E.
