RE: Sub-Petition No. 1293-BL-03, Town of Bloomfield, Connecticut  
Notice of Construction Completion

Dear Attorney Bachman:

On August 5, 2022, The Connecticut Light and Power Company doing business as Eversource Energy ("Eversource") filed the above-referenced Sub-Petition with the Connecticut Siting Council (Council) regarding maintenance work on the 115-kilovolt 1042 Line. The maintenance work, located on Eversource's transmission line right-of-way ("ROW") in Bloomfield, Connecticut, involved the replacement of one existing wood H-frame structure with a new weathering steel H-frame structure.

Pursuant to Condition 3 of the Council's September 7, 2022 acknowledgement of Eversource's notice to replace this transmission line structure, Eversource hereby informs the Council that the structure replacement construction, including ROW restoration, was completed on November 28, 2022.

Eversource is submitting this Notice electronically; an original and three hard copies also will be mailed to the Council.

Please contact me at 860-728-4654 if you have any questions regarding this Notice.

Sincerely,

A handwritten signature in cursive script that reads "Deborah Denfield".

Deborah Denfield
