On March 20, 2019, Eversource was granted an extension from the Council to complete maintenance improvements associated with the structure replacement project by June 5, 2020. On April 6, 2020, Eversource was granted a second extension from the Council to complete maintenance improvements associated with the structure replacement project by June 5, 2021. On April 30, 2021, Eversource was granted a third extension from the Council to complete maintenance improvements associated with the structure replacement project by June 5, 2022. Among other conditions of the acknowledgement, the Council required that Eversource submit the following item:

- Not less than 45 days after completion of the transmission line maintenance activity, the Council shall be notified in writing that construction has been completed.

Construction was completed on October 1, 2021.
