RE: **SUB-PETITION NO. 1293- WO-01 (Wolcott)** – Eversource Energy declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for all transmission facility asset condition maintenance improvements statewide to comply with the updated National Electrical Safety Code clearance requirements.

Dear Ms. Taylor:

The Connecticut Siting Council (Council) is in receipt of your correspondence dated November 18, 2021 regarding a project change to the Petition No. 1293 sub-petition for the above-referenced section of transmission line that was approved by the Council on October 13, 2021.

Pursuant to the Council's Petition No. 1293 decision of March 31, 2017 and the October 13, 2021 decision on this sub-petition, your request for extended work hours on the following Sundays due to a delay in the commencement of project construction is approved, as follows:

- 1) November 21, December 5, and December 12, 2021 from 8 AM to 5 PM at structure #36 (residential area) and from 7 AM to 7 PM at structures #37, #40 and #43; and
- 2) **November 28, 2021 (first night of Hanukkah)** from **8 AM to 3 PM** at structure #36 and from **7 AM to 3 PM** at structures #37, #40 and #43.

Please note structure #30 listed in your November 18, 2021 correspondence was not included in the above referenced sub-petition filed with the Council and is not subject to the Council's October 13, 2021 decision on the sub-petition.

This approval applies only to the project changes detailed in your correspondence dated November 18, 2021 (excluding structure #30). Any additional changes to the sub-petition decision require advance notification and approval.

Thank you for your attention and cooperation.

Sincerely,

Melanie Bachman
Executive Director
