RE: Non-Compliance with Declaratory Ruling Conditions and Notification of Completion

PETITION NO. 1339 – Wallingford Renewable Energy LLC declaratory ruling, pursuant to Connecticut General Statutes §4-176 and §16-50k, for the proposed construction, maintenance and operation of a 19.99 MW AC ground-mounted solar photovoltaic electric generating facility located on approximately 158 acres of 3 contiguous parcels consisting of the former Wallingford Landfill and 2 parcels owned by the Materials Innovation and Recycling Authority west of Pent Road and associated electrical interconnection to Wallingford Electric Division's Wallingford Substation in Wallingford, Connecticut.

Dear Attorney Hoffman:

Pursuant to Connecticut General Statutes §§ 4-176 and 16-50k, the Connecticut Siting Council (Council) issues Declaratory Rulings for facilities that would not have a substantial adverse environmental effect and would not require a Certificate of Environmental Compatibility and Public Need. The Council routinely imposes standard conditions when issuing Declaratory Rulings. Furthermore, the Council may add site-specific conditions that require further effort of the petitioning entities to provide written confirmation to the Council that the conditions have been met.

To date, the Council is not in receipt of any communication that site-specific conditions applicable to the above-referenced Declaratory Ruling have been met. The Council is also not in receipt of any notification that construction has been completed.

The Council hereby requests compliance on these matters no later than January 13, 2023. If additional time is needed to gather the requested information, please notify the Council in writing.

If you have any questions or concerns, please call the Council office at 860-827-2935.

Thank you for your attention to this matter.

Sincerely,
