RE: **PETITION NO. 1378** – CF Taugwonk, LLC declaratory ruling, pursuant to Connecticut General Statutes §4-176 and §16-50k, for the proposed construction, maintenance and operation of a 5.0-megawatt AC solar photovoltaic electric generating facility on approximately 16.5 acres located generally east of Taugwonk Road and Taugwonk Spur Road and north of Interstate 95 in Stonington, Connecticut and associated electrical interconnection.

Dear Ms. Wolfman:

The Connecticut Siting Council (Council) is in receipt of correspondence dated April 16, 2020 regarding the minor project changes to the above-referenced declaratory ruling that was approved by the Council on October 11, 2019.

Pursuant to Condition No. 3 of the Council's Declaratory Ruling on October 11, 2019, the request to modify the following including, but not limited to, the solar panel layout, the structural design of the racking system, the location of the permanent soil stockpile, and final electrical interconnection with equipment pad locations is hereby approved.

Subsequent to the electrical and structural drawings being acknowledged by the Council on November 7, 2019 in compliance of Condition Nos. 5&6 of the Council's Declaratory Ruling, the project developer has coordinated with Eversource to finalize the electrical interconnection details, and final geotechnical studies have been performed to supplement the structural design of the solar racking system.

This approval applies only to the minor changes received on April 16, 2020.

Thank you for your attention and cooperation.

Sincerely,

*s/ Melanie A. Bachman*
