Bloom Energy Corporation
4353 North First Street
San Jose, CA 95134

RE: **PETITION NO. 1387** - Bloom Energy Corporation declaratory ruling, pursuant to Connecticut General Statutes §4-176 and §16-50k, for the proposed construction, maintenance and operation of a grid-side 10-megawatt (MW) fuel cell facility and associated equipment to be located at Eversource Energy's existing Judd Road electric distribution substation, 160 Old Amston Road, Colchester, Connecticut. Development and Management Plan.

Dear Mr. Adams:

The Connecticut Siting Council (Council) received the Development and Management Plan (D&M Plan) for the above-referenced fuel cell facility on February 19, 2020. Section 16-50j-75(d) of the Regulations of Connecticut State Agencies, entitled, "Timing of plan" states: "The D&M plan shall be submitted to the Council, and the Council shall approve, modify, or disapprove the plan within 60 days after receipt of it..."

The current deadline for the Council to approve, modify, or disapprove the D&M Plan submitted for this facility is April 19, 2020. Please be advised that there is currently a statewide effort to prevent spread of the Coronavirus and this may adversely impact upcoming scheduled energy/telecommunications meetings and other Council business. In the event that Council business is disrupted and/or delayed, the Council will need additional time to act on this petition. The Council hereby requests an extension of the D&M Plan decision deadline for Petition No. 1387 until May 30, 2020. Please respond in writing by **March 19, 2020**.

We thank you in advance for your timely response to this matter.

Sincerely,

Melanie A. Bachman
Executive Director

MAB/MP/laf
