Re: Petition #1408

To the members of the Siting Council:

As wetlands enforcement officer I, with the commissioners of the Norfolk Inland Wetlands & Watercourse Agency, discussed the above referenced petition and your letter dated June 2, 2020 notifying us of said petition, at our regular meeting on July 6. Our discussion focused on the council's approval of the modification and the report from BNE describing this modification.

After reviewing information available in the report and maps, we are concerned about potential environmental impacts from the new site which appears to be less than twenty feet from our shared border with Colebrook, CT.

While we are grateful to have been notified of the petition, we request continued correspondence from you regarding this project and how we may participate in the review.

Thank you,

Michael J. Halloran
Wetlands Agency
