

STATE OF CONNECTICUT
CONNECTICUT SITING COUNCIL

IN RE:

NEW CINGULAR WIRELESS PCS, LLC (AT&T) PETITION
FOR A DECLARATORY RULING, PURSUANT TO
CONNECTICUT GENERAL STATUTES §4-176 AND §16-
50K, FOR THE INSTALLATION OF A SMALL CELL
WIRELESS TELECOMMUNICATIONS FACILITY ON
PROPERTY LOCATED AT 132 GREENWOOD AVENUE,
BETHEL, CONNECTICUT

PETITION NO. 1411

July 14, 2020

RESPONSES TO SITING COUNCIL INTERROGATORIES SET ONE

- Q1. Can the canister antenna and remote radio units be screened, painted or installed within some type of concealment structure?
- A1. *Yes, remote radio units can be screened. However, in this case, the remote radio units will be mounted along the parapet wall and thus, not visible from the street. The antenna cannot be painted, but it can be concealed in an enclosure, although enclosing the antenna is not preferred. Small cell installations are low powered units; therefore, the quality of the RF transmission is decreased through an enclosure.*
- Q2. Does AT&T intend to install an equipment enclosure for radio equipment? If so, where would it be installed?
- A2. *No radio equipment other than the remote radio units are proposed. As noted in A1, the remote radio units will be mounted along the parapet wall not visible from the street.*
- Q3. Would the proposed facility have backup power, e.g. battery backup? If yes, for how long could it support the facility during a power outage?
- A3. *This proposed facility will not include battery backup power.*
- Q4. Provide the proposed construction hours and days of the week for the proposed project.
- A4. *It is anticipated that three eight (8)-hour days are needed for construction. The construction schedule is shown in the table below. AT&T will comply with any applicable Town of Bethel construction scheduling requirements.*

Civil / Electrical	Qty	Hours
power equip. radio and cabling	2	8
Antenna and wire installation	1	8
Integration and troubleshooting	1	8

- Q5. Identify the zoning for the subject parcel and describe surrounding land uses.
- A5. *The subject parcel is classified in the Village Center District (VC) and the Village District Overlay. Surrounding land uses are commercial in nature.*
- Q6. What is the duration of construction to install the proposed facility?
- A6. *Construction is anticipated to take three eight(8)-hour days.*

CERTIFICATE OF SERVICE

I hereby certify that on this day the foregoing was sent electronically and one hard copy via first class mail to the Connecticut Siting Council in accordance with Connecticut Siting Council directives.
