Executive Director Siting Council  
State of Connecticut

**Re: PETITION NO. 1411 – 132 Greenwood Ave, Bethel Connecticut**

Dear Ms. Bachman:

The Town of Bethel is in receipt of the referenced petition above and would like to voice concern over the placement of the proposed small cell telecommunication fixture. We would like to note the following attachments:

Section 6.10.D.3.f. & g. which speaks to utility and mechanical equipment placement and the need for the items to be screened from public view.

Also please find that the structure mentioned in the petition is located within the National Registry of Historic Places recognized by the Federal Government.

The Town of Bethel recognizes the need for improved service and has worked in the past with various providers to use existing structures. (We have several cell facilities within belfries etc). We do believe that the Town would not be adverse to a satellite service but there is a need for its placement to be hidden from public view, following our regulations. There are creative ways this has been accomplished in the past and we look forward to working with you.

The Fire Marshal representing Emergency Management Services would also like to know if AT&T First NET Services will be provided.

I am available for further discussions and appreciate the opportunity to comment on the proposal. If you wish to contact me, I can be reached at 794-8519.

Very truly yours,

*Beth Cavagna*  
Beth Cavagna  
Director of Planning  
Town of Bethel

## **SECTION 6.10. ARCHITECTURAL GUIDELINES**

---

### **A. Purpose**

This Section is intended to aid applicants in ensuring that their designs are in harmony with the character of the community, encourage high quality building and site design, and result in development which is compatible with the character of the community.

### **B. Applicability**

Any application to the Commission, unless such requirement is waived by the Commission, shall be re-viewed in relation to the design guidelines following.

### **C. Procedure**

1. The Commission shall review an application in relation to the design guidelines of this Section or may request the assistance of a Design Review Committee or similar organization, if available, in evaluating such plans.
2. Any recommendations or suggestions so received from any reviewing agency shall not be binding upon the Commission.

### **D. Design Guidelines**

Since the architectural design, scale and mass of the buildings and other structures are important in determining the visual character of an area, the guidelines listed below are recommended so as to harmonize and be compatible with the neighborhood, to protect property values and to preserve and improve the appearance and the beauty of the community.

#### **1. Relationship of Buildings to Site and Adjoining Areas**

- a. Buildings shall be designed and located on the site so as to retain the existing topography and natural features of the land to the greatest extent possible.
- b. Buildings shall be organized in a coordinated and functional manner that is compatible with site features and the desirable characteristics of adjoining areas. In particular, exterior building renovations and new construction for properties located within the National Register designated Greenwood Avenue Historic District should take into consideration the architectural style of existing building and the pedestrian orientation of the downtown.
- c. A unified design theme for building massing, exterior treatments and signage shall be established where harmony in textures, lines, and masses is provided and monotony is avoided.
- d. Parking areas shall be treated appropriately in relation to the building, the neighborhood, and the community.
- e. The height and scale of each building shall be compatible with its site and existing (or anticipated) adjoining buildings.
- f. Newly installed utility services, and service revisions necessitated by exterior alterations, shall be underground.
- g. A desirable streetscape and attractive landscape transitions to adjoining properties shall be provided.

## **2. Landscape and Site Treatment**

- a. The design of the development and the placement of buildings, driveways, walkways, parking facilities and other improvements shall be such that existing trees, watercourses, rock outcrops and similar natural features are preserved to the greatest extent possible.
- b. Landscape treatment shall be provided to enhance architectural features, shield unsightly areas, provide shade, and relate to the natural environment and topography.
- c. Plant material that is indigenous to the area shall be selected for its ultimate growth and for interest in its shape, texture, and color.
- d. Pedestrian walkways shall provide safe and convenient connections within the site and between adjacent sites and shall be constructed of all-weather materials appropriate for the location (such as brick, concrete, or paving blocks but not earth, gravel, or loose stone).
- e. Existing trees at four (4) inches or greater caliper shall be incorporated into the site plan.

## **3. Building Design**

- a. Architectural designs appropriate to a New England community are generally preferred (pitched roof buildings, colonial facades, etc.).
- b. Architectural features shall be evaluated based on the scale of the building(s), the quality of the design, and the relationship to surroundings.
- c. Facades and rooflines shall be articulated and/or varied to reduce the appearance of bulk and provide architectural interest.
- d. Building materials shall have good architectural character and durable quality and shall be selected for harmony of the building with adjoining buildings.
- e. Building textures, colors, and components shall be selected for harmony of the building with adjoining buildings.
- f. Utility and service equipment areas shall be screened from public view with materials harmonious with the building.
- g. Rooftop mechanical equipment (other than solar energy panels) should be concealed.

## **4. Signs and Lighting**

- a. Every sign shall be designed as an integral architectural element of the building and site to which it principally relates and shall be coordinated with the building architecture.
- b. Exterior lighting, where used, shall enhance the building design and the adjoining landscape.
- c. Lighting shall be restrained in design and excessive brightness avoided.
- d. Roof lighting is prohibited.

STATE OF CONNECTICUT  
CONNECTICUT HISTORICAL COMMISSION

January 4, 2000

Mr. Charles A. Steck, III  
First Selectman  
Bethel Municipal Center  
1 School Street  
Bethel, CT 06801

Dear Mr. Steck:

It is a great pleasure to inform you that the Greenwood Avenue Historic District, roughly along Greenwood Avenue, P.T. Barnum Square, Depot Place, and South Street in Bethel, Connecticut, has been listed on the National Register of Historic Places effective December 17, 1999.

The National Register of Historic Places is the official list of historic properties recognized by the Federal Government as worthy of preservation for their significance in American History, architecture, archaeology, engineering, and culture. Located in the National Park Service, U.S. Department of the Interior, the program is part of a national policy to coordinate and support public and private efforts to identify, evaluate, and protect our cultural and national resources, and is maintained by the Secretary of the Interior under provisions of the National Historic Preservation Act of 1966.

Listing in the National Register results in the following for historic purposes:

1. Consideration in planning for Federal, federally licensed, and federally assisted projects. Section 106 of the National Historic Preservation Act of 1966 requires that Federal agencies allow the Advisory Council on Historic Preservation an opportunity to comment on all projects affecting historic properties listed in the National Register. For further information, please refer to 36 CFR 800.
2. Eligibility for Federal tax provisions. If a property is listed in the National Register, certain Federal tax provisions may apply. The Tax Reform Act of 1986 revises the historic preservation tax incentives authorized by Congress in the Tax Reform Act of 1976, the Revenue Act of 1978, the Tax Treatment Extension Act of 1980, the Economic Recovery Tax Act of 1981, and Tax Reform Act of 1984, and as of January 1, 1987, provides for a 20 percent investment tax credit with a full adjustment to basis for rehabilitating historic commercial, industrial, and rental residential buildings. The former 15 percent and 20 percent Investment Tax Credits (ITCS) for rehabilitations of older commercial buildings are combined into a single 10 percent ITC for commercial or industrial buildings built before 1936. The Tax Treatment Extension Act of 1980 provides Federal tax deductions for charitable contributions for conservation purposes of partial interests in historically important land areas or structures. Whether these provisions are advantageous to a property owner is dependent upon the particular circumstances of the property and the owner. Because tax aspects outlined above are complex, individuals should consult legal counsel or the appropriate local Internal Revenue Service office for assistance in determining the tax consequences of the above provisions. For further information on certification requirements, please refer to 36 CFR 67.

3. Consideration of historic values in the decision to issue a surface coal mining permit where coal is located, in accordance with the Surface Mining and Control Act of 1977. For further information, please refer to 30 CFR 700 et. seq.
4. Qualifications for Federal grants for historic preservation when funds are available. Presently funding is unavailable. Contact the State Historic Preservation Office to determine the current status of such grants.

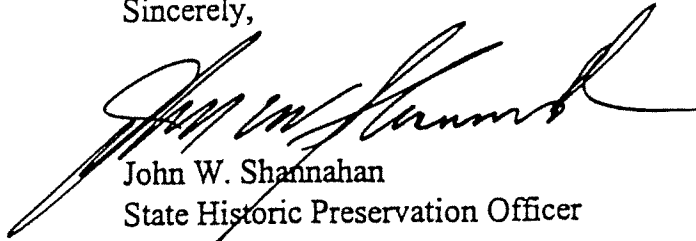

In Connecticut, listing in the National Register of Historic Places results in the following for historic properties:

1. Eligibility to purchase historical markers from the State Historic Preservation Officer.
2. Application of Connecticut General Statutes, Section 22a-19a. This statute directs that the provisions of sections 22a-15 through 22a-19, inclusive, of the Connecticut Environmental Protection Act, which permit legal recourse for the unreasonable destruction of the state's resources, shall also be applicable to historic structures and landmarks of the state. Such structures and landmarks are defined as those properties (1) which are listed or under consideration for listing as individual units on the National Register of Historic Places or (2) which are a part of a district listed or under consideration for listing on the National Register and which have been determined by the State Historic Preservation Board to contribute to the historic significance of such a district. If the plaintiff in a resulting legal action cannot make a prima facie showing that the conduct of the defendant, acting alone or in combination with others, has unreasonably destroyed or is likely unreasonably to destroy the public trust in such historic structures or landmarks, the court shall tax all costs for the action to the plaintiff.

Listing does not mean that the Federal Government wants to acquire the property, place restrictive covenants on the land, or dictate the color or materials used on individual buildings. State and local ordinances or laws establishing restrictive zoning, special design review committees, or review of exterior alterations, are not a part of the National Register program and should be clearly separated from the function of the National Register as a tool in the Federal planning process.

We are pleased to have been of assistance in the preservation of this historic resource.

Sincerely,

John W. Shannahan  
State Historic Preservation Officer

RE: **PETITION NO. 1411** – New Cingular Wireless PCS, LLC (AT&T) petition for a declaratory ruling, pursuant to Connecticut General Statutes §4-176 and §16-50k, for the proposed installation of a small cell wireless telecommunications facility on the roof of an existing commercial building located at 132 Greenwood Avenue, Bethel, Connecticut.

Dear First Selectman Knickerbocker:

Pursuant to Connecticut General Statutes §4-176 and §16-50k, the Connecticut Siting Council (Council) is in receipt of a petition for a declaratory ruling to install a small cell wireless facility to be located on the roof of an existing commercial building in the Town of Bethel.

In accordance with Section 16-50j-40 of the Regulations of Connecticut State Agencies, on or about June 9, 2020, written notice of the intent to file the petition for a declaratory ruling was provided to the Council, the property owner of record, abutting property owners and the chief elected official of the municipality in which the small cell wireless facility is proposed to be located.

Should you have any questions or comments regarding the above-referenced petition for a declaratory ruling, please feel free to call me at 860-827-2951 or submit written comments to the Council by July 9, 2020.

Thank you for your consideration.

Sincerely,

*s/Melanie A. Bachman*
