RE: **PETITION NO. 1419** - Bloom Energy Corporation petition for a declaratory ruling, pursuant to Connecticut General Statutes §4-176 and §16-50k, for the proposed construction, maintenance and operation of a customer-side 150-kilowatt fuel cell facility and associated equipment to be located at the Home Depot, 114 Federal Road, Danbury, Connecticut.

Dear Mr. Adams:

The Connecticut Siting Council (Council) is in receipt of your correspondence of July 16, 2020 submitted in response to the Council's July 14, 2020 notification of an incomplete petition for a declaratory ruling with regard to the above-referenced matter.

The submission renders the petition for a declaratory ruling complete and the Council will process the petition for a declaratory ruling in accordance with Regulations of Connecticut State Agencies Section 16-50j-40.

Thank you for your attention and cooperation.

Sincerely,

s/Melanie A. Bachman

RE: Application of Bloom Energy for the location and construction of one (1) new ES-5 Bloom Energy Server solid oxide fuel cell to provide 150 Kilowatts of Customer-Side Distributed Resource at 114 Federal Road, Danbury, Connecticut

Dear Ladies and Gentlemen:

Pursuant to Section §16-50j-40 of the Connecticut Siting Council's (the "Council") regulations, we are notifying you that Bloom Energy intends to file, on or about July 10, 2020, a petition for declaratory ruling with the Council. The petition will request the Council's approval of the location and construction of a 150-kilowatt (KW) fuel cell installation and associated equipment. The Facility will be located at The Home Depot at 114 Federal Road in Danbury, Connecticut (the "Site").

The purpose of the proposed Facility is to replace a portion of the annual load of The Home Depot operations at that location with a renewable energy source¹ and improve reliability of electrical systems and equipment. Electricity generated by the Facility will be consumed primarily at the Site, and any excess electricity will be exported to the electric grid. The Facility will be fueled by natural gas.

Keeping the lines of communication open is an important part of our work in your community. If you have questions about this work, please contact the undersigned or the Council.

Respectfully,

Justin Adams
justin.adams@bloomenergy.com

¹Connecticut General Statutes §16-1(a)(26)(A) identifies fuel cells as a "Class I renewable energy source"
