**Subject:** Re: Petition 1438 to CSC.pdf

Good morning, Latoya.

I hope all is well and Happy New Year!

Thank you for the comments on the proposed fuel cell facility at the Dyno Nobel manufacturing facility in Simsbury. According to the screening checklist attached to the December 24, 2020 DOT comments, there appear to be no potential transportation infrastructure impacts from the construction, maintenance and operation of the proposed facility.

However, with regard to the bullet points in the body of the December 24, 2020 DOT comment letter, please be advised that the Siting Council is required to consult with the state agencies listed in the attached comment solicitation memo by statute. In addition to DOT and other agencies, SHPO is directly consulted for any comments relative to their expertise in historic and cultural resources. Certainly, if SHPO has concerns about any impacts to cultural or historic resources from development of the proposed fuel cell facility at the Dyno Nobel manufacturing facility in Simsbury, SHPO may submit comments directly to the Siting Council.

Thank you. Have a great day.

Melanie
