RE: **PETITION NO. 1454** – The Connecticut Light and Power Company d/b/a Eversource Energy declaratory ruling, pursuant to Connecticut General Statutes §4-176 and §16-50k, for the proposed modifications to its existing Mansfield Substation located at 140 North Eagleville Road, Mansfield, Connecticut, and related electric transmission line structure improvements.

Dear Ms. Taylor:

The Connecticut Siting Council (Council) is in receipt of the email correspondence dated February 22, 2022, regarding temporary changes to work hours for the above-referenced declaratory ruling that was issued by the Council on July 30, 2021.

Pursuant to Condition No. 1 of the Council's Declaratory Ruling, your request to perform work from 7:00 p.m. until 10:00 p.m. on Wednesday, February 23, 2022 at Mansfield Substation is hereby approved. The extended work hours are necessary to accommodate a slower concrete pour for the switchgear building foundation due to the proximity of the concrete truck to energized substation equipment and to allow for curing setup and surface finishing of the concrete.

This approval applies only to the request for changes to work hours dated February 22, 2022. Any significant changes to the project require advance Council notification and approval.

Thank you for your attention and cooperation.

Sincerely,

Melanie A. Bachman  
Executive Director

MB/MP

c: Kathleen Shanley, Manager – Transmission Siting, Eversource Energy  
The Honorable Antonia Moran, Mayor, Town of Mansfield

**To:** CSC-DL Siting Council  
**Cc:** Shanley, Kathleen M  
**Subject:** PET 1454 Mansfield Substation - 2/23 - Extended hours to 10 PM

Dear Ms. Bachman:

Eversource Energy is requesting approval from Connecticut Siting Council staff for extended hours from 7 PM to 10 PM on February 23, 2022, to pour concrete for the distribution switchgear at Mansfield Substation. Due to the proximity of the concrete truck to the energized substation equipment, a slower concrete pour would be required. The project anticipates all the concrete to be poured prior to 7 PM; however, the foundation surface finishing and curing setup is anticipated to continue past this time to facilitate the smooth finish required for the switchgear building to be installed.

The Town of Mansfield has been notified and the abutter will be contacted in advance of the work activities.

Helen M. Taylor, MBA
