RE: **PETITION NO. 1458** – Homestead Fuel Cell 1, LLC declaratory ruling, pursuant to Connecticut General Statutes §4-176 and §16-50k, for the proposed construction, maintenance and operation of a grid-side 8.4-megawatt fuel cell facility located at 441 Homestead Avenue, Hartford, Connecticut, and associated electrical interconnection to Eversource Energy’s existing Northwest Hartford Substation. **Development and Management Plan.**

Dear Attorney McDermott:

The Connecticut Siting Council (Council) received the Development and Management Plan (D&M Plan) for the above-referenced fuel cell facility on July 1, 2022. Section 16-50j-60(d) of the Regulations of Connecticut State Agencies, entitled “Timing of Plan” states: “The D&M Plan shall be submitted to the Council in one or more sections, and the Council shall approve, modify, or disapprove each section of the plan not later than 60 days after receipt of it...”

The current deadline for the Council to approve, modify, or disapprove the D&M Plan submitted for this facility is September 2, 2022. Due to the Council’s cancellation of its September 1, 2022 regular meeting, the Council will need additional time to review the D&M Plan. The Council hereby requests an extension of the D&M Plan decision deadline for Petition No. 1458 until December 9, 2022.

Please respond in writing by August 11, 2022.

We thank you in advance for your timely response to this matter.

Sincerely,

Melanie Bachman
Executive Director
