RE: Proposed relocation of wireless telecommunications facility from 28 Sidney Street, Stratford, to nearby 200 East Main Street, Rear, Stratford.

To Whom It May Concern:

I write on behalf of Barrett Outdoor Communications, Inc. (“Barrett”). Barrett intends to file with the Connecticut Siting Council (“Council”) a petition for declaratory ruling (“Petition”) that a Certificate of Environmental Compatibility and Public Need is not required.

The Petition addresses the relocation of a wireless telecommunications facility (“Relocated Facility”) currently located at 28 Sidney Street in Stratford (“Existing Location”) to 200 East Main Street, Rear, in Stratford (“Property”). The Relocated Facility would be located approximately 0.25 miles from the Existing Location in a retail commercial district designated as “CA.” The Relocated Facility is proposed in the northern portion of the Property, which is an approximately 4.37 acre parcel consisting of one lot, and currently used as a storage area for boats. The Relocated Facility would consist of a 125 foot monopole above grade level, designed to accommodate a future extension of twenty feet. The relocation is necessary because of the location and height of buildings associated with the ongoing redevelopment at the Existing Location, which includes a self-storage facility and two nationally recognized restaurants.

This letter serves as notice to you as an abutting property owner pursuant to § 16-50j-40 of the Regulations of Connecticut State Agencies. Barrett will file the Petition on or about October 15, 2021, and will request that the Council place the Petition on some future agenda.

You may review the Petition at the office of the Council, which is located at Ten Franklin Square, New Britain, Connecticut, 06051, or at the Office of the Town Clerk at the Stratford Town Hall. If you have any questions or concerns regarding this matter, please contact the undersigned at (203) 786-8317, or the Council at (860) 827-2935.

Very truly yours,

Jesse A. Langer
