RE: LSE Indus LLC (“Lodestar Energy”) Petition for Declaratory Ruling pursuant to Connecticut General States § 4-7176 and § 16-50k for the proposed construction, operation and maintenance of a 1.99 MW AC ground-mounted solar photovoltaic electric generating facility to be located at 81 East Main Street, North Canaan, CT

Dear Attorney Bachman:

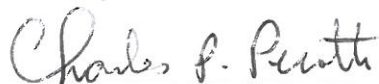

I am writing this letter to express the Town of North Canaan’s support for Lodestar Energy’s 1.99 MW AC solar photovoltaic facility to be located at 81 East Main Street in North Canaan, Connecticut (the “Site”). As you are aware, the Siting Council has the formal approval associated with the siting of any utility facility and the petitioner is appearing before the Siting Council to address any issues and questions the Council and its staff deems appropriate. This project is a part of the State’s on-going efforts to address the fragile power supply serving our area. The Town of North Canaan shares the state and regional concerns about the significant electric generation capacity shortage projected for northern Connecticut.

Representatives of Lodestar Energy have met on a number of occasions with Town of North Canaan staff and other local organizations, including an appearance before the Town Selectboard on May 3, 2021, a conversation with the Chairman of Planning and Zoning on May 10, 2021 and have agreed to return to the Selectboard on June 7, 2021 to provide a project update.

The Town of North Canaan has reviewed the plans and writes to express its support for the proposed facility at the Site. Due to the location and topography of the Site, we agree with Lodestar Energy that there will be little to no impact to abutting property owners, including visual impact. We are confident that Lodestar Energy will continue to cooperate with the Town throughout the construction and implementation phases of this Project and it will be of great benefit to the Town of North Canaan.

Please let me know if you have any questions.

Sincerely,

Charles Perotti
First Selectman
