**Interrogatories**

1. Provide the estimated cost of the proposed facility.
2. Identify the zoning classification for the project location and surrounding area.
3. Could the construction or operation of the proposed facility impact or interfere with any existing public utilities, overhead or underground, within the project area? If so, identify any measures that would be employed to protect the existing utilities from impact or interference.
4. Why was proposed location chosen for the new utility pole? Were locations examined across the street in the area of other utility infrastructure? Explain.
