Subject: Collins Aerospace Windsor Locks - Proposed Solar Facility [Filed 25 Oct 2022 11:47]
Attachments: Figure 1 - USGS - 10-12-2022.pdf; Figure 2 - Aerial - 10-12-2022.pdf

Categories: Filed by Mail Manager

Hi Eric,

Thank you for taking time to chat with me this morning re: the above-referenced project. I have copied Jake Schneider as well, who is from Earthlight who is the project developer on behalf of Collins Aerospace.

Attached are two maps which we would respectfully ask that you keep confidential internally at least for the next week or two until we file our public CT Siting Council application (at which point I'd be happy to send you a link to the public evidentiary record), for your reference.

It is about an ~8 acre facility (about 4 acres of tree clearing) which will generate up to 1.9 MW of power. We'd be happy to have a virtual presentation to town staff if you'd like, or let us know if you do not need anything further from us conversely. We are also happy to do our best to field any concerns or questions you may have on the project.

Lastly, I am noticing that we do not include town lines on these attached figures, which I will work to get resolved, but I am sure you are aware that Route 20 is the divider between Windsor and Windsor Locks in the vicinity of our project.

Thank you,

Steve Kochis, PE
