New Britain, CT 06051

**Re: Petition of KCE CT 9, LLC for a Declaratory Ruling that no Certificate of Environmental Compatibility and Public Need is Required for the Proposed Construction, Operation and Maintenance of a 5.0-megawatt (“MW”) Battery Energy Storage System, to be Located at 2 Ella Grasso Turnpike, Windsor Locks, Connecticut**

Dear Ms. Bachman:

I am writing on behalf of my client, KCE CT 9, LLC, a subsidiary of Key Capture Energy, which submitted hard copies of a petition with the Council earlier today for a facility to be located at the above-referenced location in Windsor Locks, Connecticut. Unfortunately, in reviewing the hard copy of the petition, we have uncovered a scrivener’s error in section 3.6 – Noise.

Section 3.6 references an acoustic analysis that was prepared by Epsilon Associates, and states that a full copy of that analysis is included as Exhibit F. In reality, the acoustical analysis is contained in Exhibit G. We regret the error.

In addition to the hard copies of the Petition provided to the Council, the Petitioner wishes to provide the Council with an electronic version of its submittal. That electronic version may be found by going to:

<https://flycatcherllc.sharepoint.com/sites/Flyshare/Documents/Forms/AllItems.aspx?id=%2Fsites%2FFlyshare%2FDocuments%2FConnecticut%20Siting%20Council%2FKCE%20CT%209%20%2D%20BESS%20Petition&p=true&ga=1>.

Should you have any questions concerning this submittal, please contact me at your convenience.

Sincerely,

Lee D. Hoffman  
Enclosures

cc: Paul M. Harrington, First Selectman, Town of Windsor Locks, Connecticut (hard copy of petition included)
