**Subject:** Hearing Request for Petition # 1583 to Ct Siting Council

Dear Siting Council Members,

I am contacting you to express my deep opposition to petition number 1583 for a commercial, solar installation at 428 Bethmour Rd in Bethany, CT and to request a hearing to allow all of the concerned neighbors to voice their objections.

The main reason we are opposed to this facility is that it is being proposed in a completely residential zoned area of our town while there are plenty of commercially zoned areas that can support this effort.

There residents located extremely close to this site that all rely on well water that shares an aquifer with the proposed site.

It is a very quiet neighborhood there have been many articles published that these fields emit a loud high pitch sound that is maddening.

My neighbors and I have already collected more than 800 signatures in an online petition from community members who also oppose this project.

The area that they wish to develop is home to much wildlife including deer, bobcats, coyote and many other animals.

Please allow the town residence to have a hearing and discuss our concerns.

Thank you,
