

Windsor Solar One

Re: Windsor Solar One

Current Resident:

I am writing to introduce you to Windsor Solar One, developed by Verogy, a West Hartford-based renewable energy developer focused on operating Solar Farms for municipal and commercial clients. Our team has decades of experience in the development, financing, construction, and management of solar energy projects. We are currently pursuing a new solar project in Windsor. In addition to this letter, you will receive an official notice from our attorney that indicates our intent to file a petition with the Connecticut Siting Council.

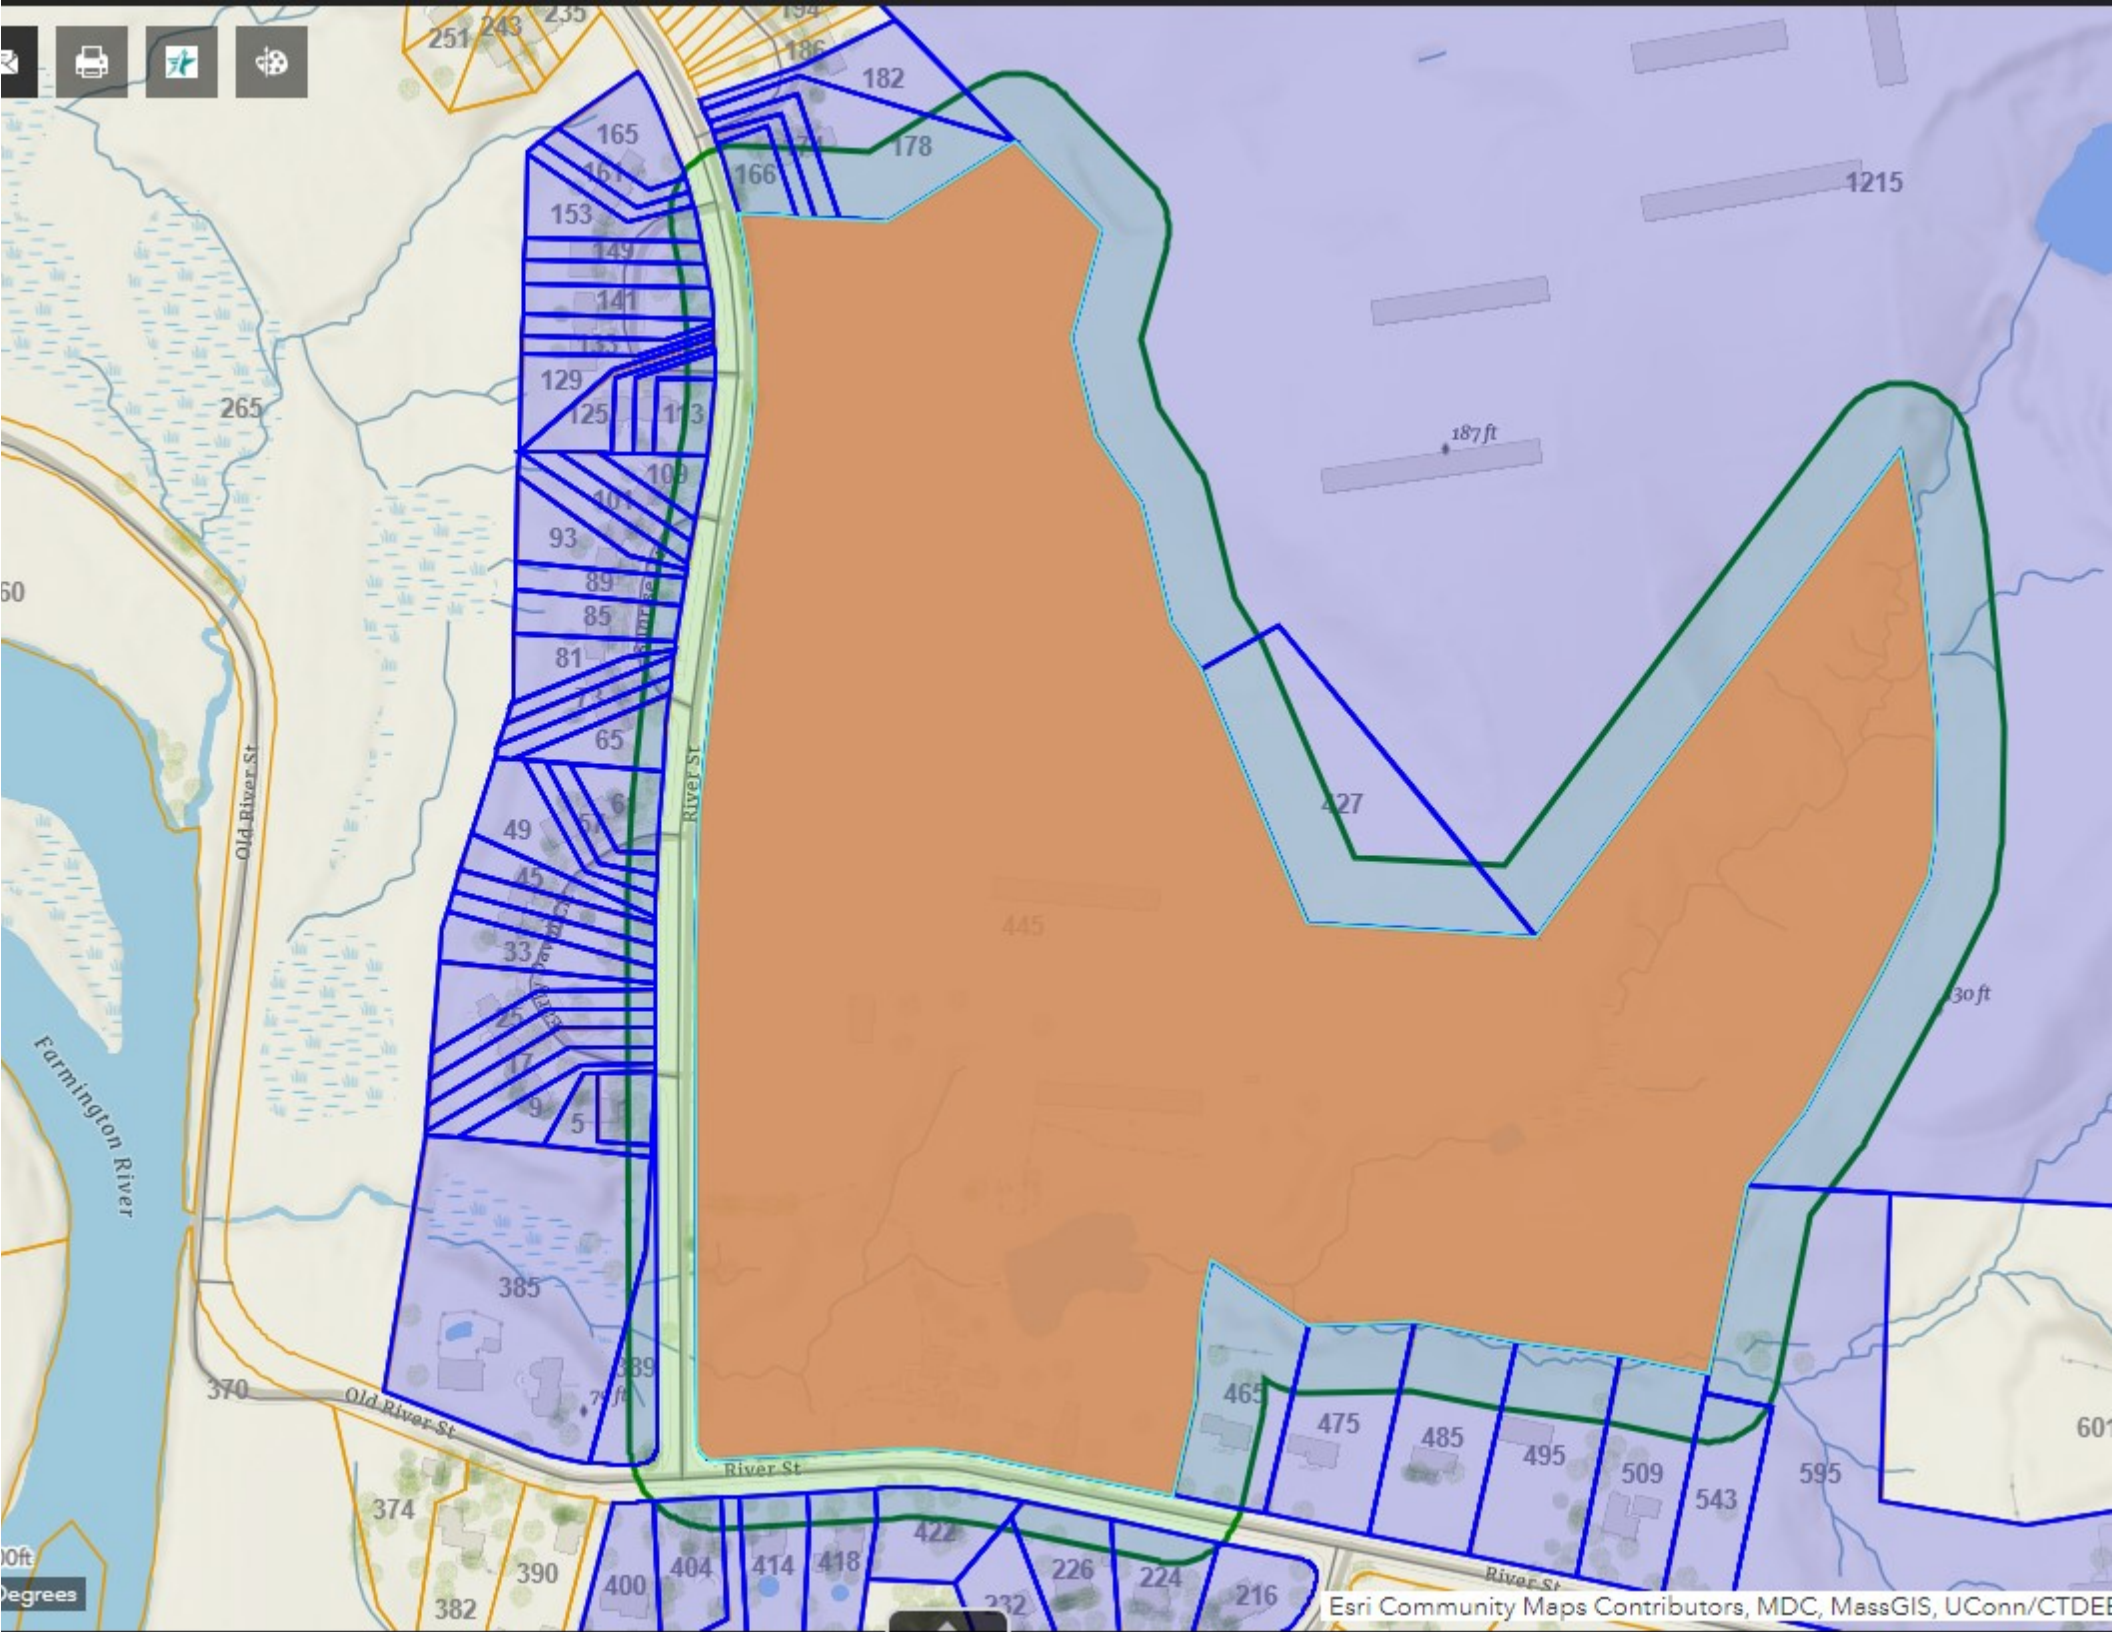

The proposed project, Windsor Solar One, is located at 445 River Street. The project's design calls for a 3-megawatt system located on approximately 13.5 of the parcel's 47.1 acres. Once completed, Windsor Solar One is projected to generate enough energy to power 760 homes for a year, while generating zero pollution or carbon emissions. Shared Clean Energy Facility (SCEF) projects such as this one result in credits applied to the bills of participating electric customers at no cost to them. Subscribers include low and moderate-income customers, as well as small business & municipal customers. The cumulative annual benefit to these customers is estimated to be \$137,000. Additionally, Windsor Solar One will be an economic contributor to the town, generating new property tax revenues and creating jobs in the region. Agricultural production will continue within the solar farm through a sheep grazing program within the fenced limits of this solar array to assist with vegetative maintenance of this facility.

Enclosed is a fact sheet with additional information and we have established a project website (www.verogy.com/windsor-solar-one) which will be updated with the latest project information and available as a resource for you throughout this process. We hope you let us know if you have any comments or questions through the Contact Us section at the bottom of the page. We are looking forward to investing in Windsor and appreciate your feedback as we finalize our proposed project.

The Verogy team looks forward to connecting with neighbors as we work to develop Windsor Solar One. If you have any questions, please feel free to reach out.

Sincerely,

Bryan Fitzgerald

Windsor Solar One

PROJECT DESCRIPTION

- Windsor Solar One is a solar project located at 445 River Street in Windsor, Connecticut
- The 3 MW AC system will generate enough electricity to power 760 average homes for a year
- The project site is designed to have minimal environmental impacts with no disruption to wetlands or core forest

BENEFITS TO WINDSOR

- Increased new annual municipal tax revenues with no additional burden on town services
- Infrastructure upgrades that improve the reliability of Windsor's electrical grid
- Reduction in energy demand during peak usage will decrease energy costs for ratepayers statewide
- Strengthened renewable energy resources that produce electricity locally with zero pollution

ACHIEVING THE 100% ZERO CARBON TARGET BY 2040 & ENVIRONMENTAL BENEFITS

- As a Class I Renewable Energy Source, Windsor Solar One will help support the goals set forth in Governor Lamont's September 2019 Executive Order No. 3 100% zero carbon target for the electricity sector by 2040
- Once operational, the project will offset the equivalent of 3,907 metric tons of CO₂ annually, equal to the emissions from 439,665 gallons of gasoline consumed, or to the carbon sequestered by 64,608 tree seedlings grown for 10 years
- Shared Clean Energy Facility (SCEF) projects will result in credits that will be applied to the bills of participating electric customers at no cost to those customers. Subscribers include low-income customers and moderate-income customers, as well as Small Business & Municipal Customers
- When completed, the project will use an estimated 13.5 acres out of a total 47.1 acres, leaving the balance of the parcel to continue its prior land use characteristics

APPROVAL PROCESS

Verogy requires approval from the Connecticut State Siting Council, who has jurisdiction over projects like Windsor Solar One. We will also be working closely with municipal departments in Windsor throughout the development of this project. Windsor Solar One will also obtain a General / SWPP Permit from CT DEEP.
