1. Manner in which intervenor's participation is in the interests of justice and will not impair the orderly conduct of the proceedings.

The proposed solar farm is directly across from my residence and it's construction will negatively impact both the quiet enjoyment of my home, as well as my property value. It's construction also poses health and safety concerns due to the extremely close physical proximity of the residences surrounding this site. Thus I have a very vested interest in the outcome of these proceedings.

My participation will be in accordance with all the guidelines provided by the CT Siting Council in it's document Information Guide to Party and Intervenor Status.

2. Manner and extent to which intervenor proposes to participate:

I will be fully participating as an Intervenor, once I am granted this status. I will utilize the CT Siting Council Guide to Party and Intervenor status, as the document that outlines the entire participation opportunities to which I am entitled.

3. Statutory authority for intervenor request:

I am a resident of the Town of Windsor and I have lived in my home, which is directly across from the proposed solar farm site, for 37 years.

4. Nature of evidence intervenor intends to present:

Any and all evidence that will help inform the CT Siting Council as to concerns that they should consider when trying to make a determination as to whether this proposed solar farm should be constructed.

Copies of this request are required to be electronically mailed to all participants on the service list of a **pending** matter, which can be found on our website in Pending Matters under the appropriate docket or petition number
