**Re: Petition No. 1623 - HQCA Energy Solutions, LLC petition for a declaratory ruling, pursuant to Connecticut General Statutes § 4-176 and § 16-50k, for the proposed construction, maintenance and operation of a 3.92-megawatt AC battery energy storage facility located at 40 Norwich Road, Waterford, Connecticut and associated interconnection**

Dear Ms. Bachman:

I am writing on behalf of my client HQCA Energy Solutions, LLC (“HQCA” or the “Petitioner”) in connection with the above-captioned Petition. On September 13, 2024, Petitioner provided answers and supporting materials in response to the Interrogatories posed by the Connecticut Siting Council on June 4, 2024. In response to Interrogatory No. 10, Petitioner provided a Site Map depicting the boundaries of the battery energy storage facility but noted that the interconnection route should be changed to “Overhead”.

Enclosed please find an updated version of Petitioner’s Site Map in response to Interrogatory No. 10 which shows the interconnection route as overhead.

The electronic version of the above described Site Map has been sent via electronic mail along with this cover letter.

The original and fifteen copies of the Site Map are being sent via overnight delivery to the Council’s office.

I hereby certify that a copy of the foregoing document was sent via electronic mail to the service list for Petition No. 1623 on September 25, 2024.

Please do not hesitate to contact me with any questions or concerns regarding this submission.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mark J. Cook". The signature is fluid and cursive, with the first name "Mark" being the most prominent.

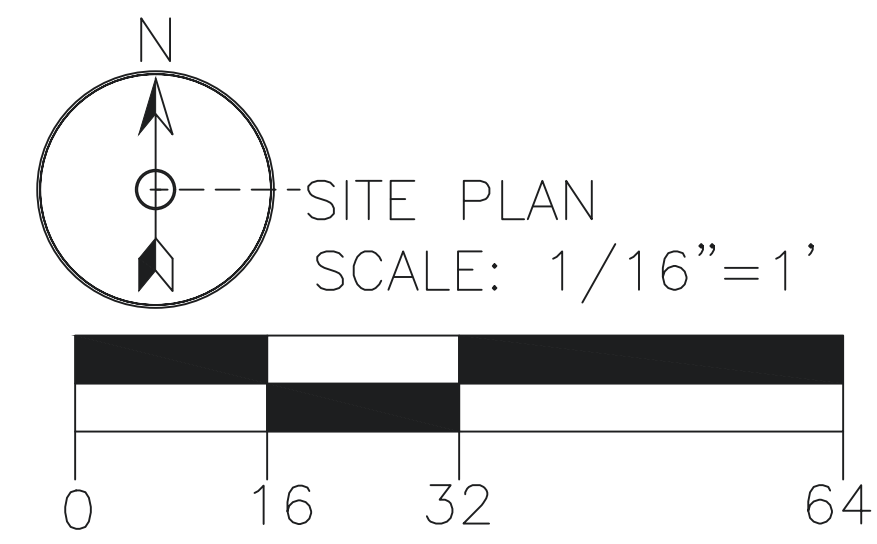

Mark J. Cook, Esq.
