Re: PETITION NO. 1711 – Greenskies Clean Energy LLC petition for a declaratory ruling, pursuant to Connecticut General Statutes §4-176 and §16-50k, for the construction, maintenance and operation of a 4.99-megawatt AC solar photovoltaic electric generating facility and associated equipment located at Parcel No. 146 007 0000 Schoolhouse Road along the Stafford municipal boundary in Ellington, Connecticut, and associated electrical interconnection

Dear Ms. Bachman:

I am writing on behalf of my client, Greenskies Clean Energy LLC (the “Petitioner”) in connection with the above-referenced Petition. The Petitioner is in receipt of the Town of Ellington Conservation Commission’s (“Conservation Commission’s”) July 14, 2026 comments as sent to the Connecticut Siting Council (“Council”).

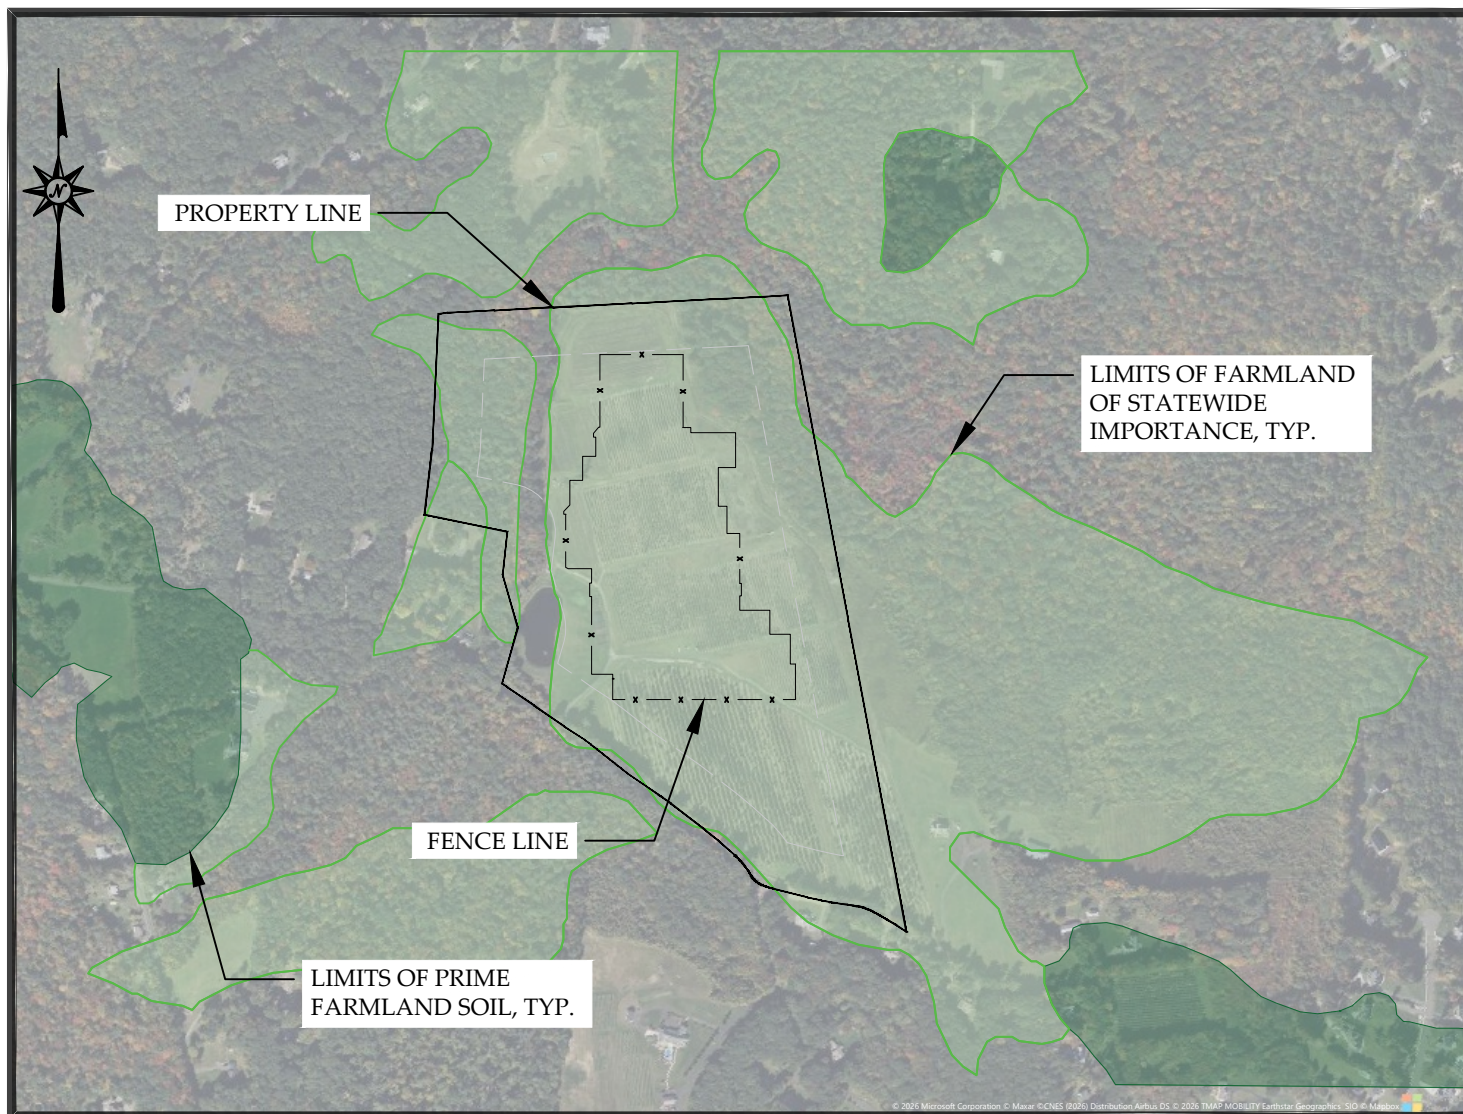

The Conservation Commission correctly notes that the proposed site contains farmland soils of statewide importance. No prime farmland is present on the site. The Petitioner appreciates the Conservation Commission flagging that an incomplete version of Figure 7 was filed with the initial petition filing, and hereby provides Revised Figure 7 for the Council’s review.

I certify that a copy of this submission has been sent to all participants of record via electronic mail. A copy has also been filed with the Authority as an electronic web filing and is complete.

Respectfully submitted,

Kathryn E. Boucher
