Re: Docket No. 272- The Connecticut Light and Power Company and The United Illuminating Company Application for a Certificate of Environmental Compatibility and Public Need for the Construction of a New 345-kV Electric Transmission Line and Associated Facilities Between Scovill Rock Switching Station in Middletown and Norwalk Substation in Norwalk, Connecticut – UI’s Development and Management Plan (“D&M Plan”) for Underground Electric Transmission Line

Dear Chairman Katz:

Continuing refinement of the civil design of The United Illuminating Company’s (“UI”) underground portion of the Middletown/Norwalk project has resulted in a modification to the D&M Plan submitted to the Council for approval on March 7, 2006. Kindly substituted the following language for section 6.7.4 (EMF Mitigation) of the D&M Plan in its entirety:

*The following Statutory Facilities have been identified as being adjacent to the Lines:*

*The Bridge Academy School (Southeast Corner of Noble Avenue and Pulaski Street)*

*Barnum School Annex (391 East Washington Avenue)*

*Washington Park (northeast corner of Noble Avenue and Barnum Avenue)*

*The Bridge Academy School (510 Barnum Avenue)*

*Little Lamb Day Care (House of Faith Church) (431 Hallett Street)*

*Household of Evelyn Bermudez (Daycare) (45 Elizabeth Street)*

WIGGIN AND DANA  
Counsellors at Law

*Cheyenne's Daycare & Learning Center (2189 Barnum Avenue)*

*A.B.C.D. Holy Name of Jesus Child Care (1950 Barnum Avenue)*

*Franklin School/Stratford Extended YMCA Daycare (1895 Barnum Avenue)*

*Household of Sarita C Cubero (Daycare)(1630 Broadbridge Avenue)*

*Stratford High School (45 North Parade Street)*

*The 345 kV transmission line route has been designed to maximize distance between these facilities and the line. As the project proceeds toward final design these distances will continue to be maximized, taking into account the proximity of obstructions such as other utilities. As per Siting Council Order 14j, a post construction electric and magnetic monitoring plan will be developed and submitted for approval prior to the completion of construction. The approved plan will then be attached as Appendix D.*

The attached chart details the location of the statutory facilities and the distances from each facility to the line.

Please do not hesitate to contact me if you have any questions about this filing.

Very truly yours,

Bruce L. McDermott
