

CL&P/UI
Docket No. 272

Data Request D-W-03
Dated: 06/15/2004
Q- D-W-062
Page 1 of 1

Witness: Anne Bartosewicz
Request from: Towns of Durham and Wallingford

Question:

Reference Volume 1 of the Application dated October 9, 2003. For the Applicants' preferred overhead route, identify each Structure in the Town of Durham, any portion of which is within the existing right-of-way.

Response:

The Companies have identified one Structure in the Town of Durham located at 15 Packing House Hill Road that encroaches approximately 18 feet into the ROW.

Other Structures in the Town of Durham that appear to encroach into the existing right-of-way, as they existed in Spring 2002, can be identified in the aerial photographs in Volume 11 of the Application, sheet numbers 11-30. A land survey will be required to determine if the structures do, in fact, encroach. Such surveys will be done as part of the D&M Plan process.
