Re: Docket No. 272 – Northeast Utilities Service Company Application to the Connecticut Siting Council for a Certificate of Environmental Compatibility and Public Need (“Certificate”) for the construction of a new 345-kV electric transmission line facility and associated facilities between Scovill Rock Switching Station in Middletown and Norwalk Substation in Norwalk, including the reconstruction of portions of existing 115-kV and 345-kV electric transmission lines, the construction of Beseck Switching Station in Wallingford, East Devon Substation in Milford, and Singer Substation in Bridgeport, modifications at Scovill Rock Switching Station and Norwalk Substation, and the reconfiguration of certain interconnections

Dear Ms. Katz:

The undersigned notes that on page 145 of the Applicant’s Proposed Findings of Fact (dated March 11, 2005), they erroneously state that “. . . the Council did not take administrative notice of the Revised BMP during the proceeding.” As reflected on page 295 of the February 17th hearing transcript (copy attached), the Council voted to take administrative notice of its report to the Legislature concerning its adoption of its Revised BMP, which report included the Revised BMP.

Very truly yours,
