

Interrogatory CSC-7 Revised

**The United Illuminating Company
Docket No. CSC F2008**

**Witness: Robert Manning
Page 1 of 1**

Q-CSC-7 Revised: **Did UI experience any record peak loads during the recent heat wave on June 9 and June 10th? Provide the daily peak loads in megawatts.**

A-CSC-7 Revised: **UI did not experience an all time record peak during the recent heat wave on June 9 and 10. UI's current record system peak load is 1456 MW and occurred on August 3rd 2006. However, as of June 16th, UI did experience a 2008 record peak load which occurred on June 10th. The daily peak loads for June 9 - 10 were:**

Date	Peak Load (MW)
June 9	1269
June 10	1301
