Honorable Daniel Caruso
Chairman
Connecticut Siting Council
10 Franklin Square
New Britain, CT 06051

Re: **Docket F-2008**

Dear Chairman Caruso:

Enclosed is Exhibit 1 (Revised) to The United Illuminating Company's Report to the Connecticut Siting Council on Loads and Transmission Resources dated April 10, 2008 (the "Report"). Exhibit 1 is located on page 21 of the Report.

The Revised Exhibit includes the addition of approximately 100 megawatts of load that was mistakenly omitted from the modeling used to create Exhibit 1. Additionally, the "normal" weather peak forecast presented in the Revised Exhibit reflects the impact of Distributed Generation ("DG") and the demand side management ("DSM") focus levels described in the Company's Integrated Resource Plan ("IRP") filed with the CEAB on January 2, 2008. UI's "extreme" weather peak forecast presented in the Revised Exhibit does not reflect the impact of DG, and only reflects the impact of the base DSM case from the IRP.

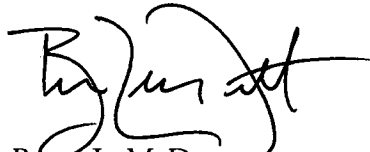

Please note that the Revised Exhibit was used by UI in the preparation of the responses to the Siting Council's interrogatories that were filed with the Council on June 26, 2008 and that no other revisions to the Report are necessary at this time.

Chairman Caruso
